

Vaishvi Jariwala

Design-savvy engineer building systems and stories that make data, products, and brands easier to understand. Skilled in bridging prototype-to-production workflows, combining data-driven software engineering with rapid design iteration to ship scalable, human-centered experiences.

EXPERIENCE

Fluor, Houston, TX — *Commercial Strategies Analyst Intern*

MAY 2025 - AUGUST 2025

Defined product strategy through 20+ stakeholder interviews for Fluor's \$50M supply chain expansion into Romania. Synthesized research into executive white papers and data visualization decks that informed board-level investment decisions. Partnered cross-functionally to define KPIs and establish feedback loops for product-market fit validation.

Fluor, Houston, TX — *Software Engineering Intern*

MAY 2024 - AUGUST 2024

Redesigned and refactored Supplier Dashboard module (1000+ lines), identifying UX friction points and optimizing information architecture. Reduced reporting latency by 30%. Debugged backend service during Java 8→12 migration, resolving 15+ defects. Launched AngularJS module from requirements to production.

Department of Technological Systems Management, Stony Brook, NY — *Undergraduate Research Assistant*

JANUARY 2024 - MAY 2024

Designed an interactive stock-analysis web app using JavaScript and Observable that transformed financial data into real-time visualizations. Optimized data pipeline, reducing load time by 40%. Implemented Linear Regression-based price prediction delivering forecasts in <1 second.

PROJECTS

WineWright

JANUARY 2024 - MAY 2024

Designed smartphone app simplifying wine pairing discovery. Applied mobile UX best practices (hidden navigation, progressive disclosure, interaction states) and developed cohesive visual design system with custom iconography.

EDUCATION

Stony Brook University — *BS Technological Systems Management with Computer Science*

2nd Major Applied Mathematics and Statistics

AUGUST 2021 - DECEMBER 2025

California Institute of the Arts — *UI/UX Design Specialization*

NOVEMBER 2025 - PRESENT

AWARDS

Dean's List for Academic Excellence in 2025

TOOLS

Figma, React, HTML/CSS, JavaScript, Next.js, Python, Observable, D3.js, Framer Motion | User Research, Visual Design, Interaction Design, Prototyping, Information Architecture, Usability Testing, Design Systems, Data Visualization

LEADERSHIP

Dean's List for Academic Excellence in 2025
